Become a Corporate Supporter

The Food Chain exists to ensure people living with HIV in London can access the nutrition they need. Our Specialist HIV Dietitians provide personalised advice and guidance to complement our practical support: delivering meals and groceries, offering cookery and nutrition classes, and hosting communal eating opportunities to help people get well, stay well and lead healthy independent lives.

16% of people in London face food insecurity and on average more than 3 in 10 are living with disabilities and long-term health conditions such as HIV.

Our support is needed as much as ever, and you can help.

“The Food Chain has changed my life. It has helped me to take my medication because I need food to take it and I did not have any food”
